<b>Office Action Summary</b>	<b>Application No.</b> 10/606,909	<b>Applicant(s)</b> LECKRONE ET AL.	
	<b>Examiner</b> (Jackie) Tan-Uyen T. Ho	<b>Art Unit</b> 3731	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restrictions***

1. After a careful reconsideration of this application, the previous Restriction mailed on 3/22/05 and the Office Action mailed on 6/29/05 are withdrawn. Since the Restriction was made by error, the Election filed 4/21/05 is not entered.

***Response to Arguments***

2. Applicant's arguments with respect to claim 39 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's arguments with respect to claim 40 have been fully considered but they are not persuasive. Applicant argues that Vacho does not disclose a means for stabilizing. Examiner disagrees. The stabilizer in Vacho is the fixation helical member 82 which is adapted to stabilize the device at the treated site as the fixation element 82 is advanced to penetrate the myocardium. Note: The introductory statement of intended use "for stabilizing" and all other functional statements have been carefully considered but are deemed not to impose any structural limitations on the claims distinguishable over the Vacho's fixation element which is capable of being used as claimed if one desires to do so.

***Drawings***

3. The drawings are objected to because in figure 10: reference 232 pointing to inner tube 210; reference 226 not pointing to outwardly projection; in figure 11: reference 210 pointing to different parts; reference 234 was not described; reference 232 pointing to outer tube instead of inwardly projection. Corrected

Art Unit: 3731

drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3731

5. Claims 39, 41, 43-45 are rejected under 35 U.S.C. 102(b) as being anticipated by Suzuki et al. (4,682,981). Suzuki et al. disclose an inner tube (3) including outwardly projections (12), an outer tube (4) including recesses (9).

6. Claims 39-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Vacho (5,531,780). Vacho discloses an apparatus for delivery therapeutic drug comprising an outer tubular body (124), an inner tubular member (56) and a fluid delivery catheter (186) as claimed (figs 1-12), means for stabilizing (82).

#### ***Allowable Subject Matter***

7. Claim 42 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

Art Unit: 3731

the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to (Jackie) Tan-Uyen T. Ho whose telephone number is 571-272-4696. The examiner can normally be reached on MULTIFLEX Mon. to Sat..
